# Political Highlights -

(Continued from Page 1)

The obvious conclusion is that some delegates are being counted in both camps. .

That could be because delegates have indulged in double-talk which Kennedy or McCormack or their lieutenants have misconstrued.

Or it could be because some delegates are actually committeed to both candidates when obviously they can vote for only one. Broken pledges are common commodities at political conventions.

A good many jittery delegates would breathe a lot easier if they could vote by secret ballot on the McCormack-Kennedy fight.

The confidence of McCormack and Kennedy is reflected by the fact that they are against such a departure from custom. They want the delegates to stand up and be counted. They want to know who votes for whom.

To this observer it appears that the Kennedy-McCormack fight will be close. With the senatorial balloting only a short time away, no trend or surge to either candidate is apparent. It's just a tight, tense

In Boston the two appear to be battling about on even terms although there are conflicting claims as to who has what. Many of the delegations will be polled individually as supporters of one candidate the other dispute the count announced.

Both McCormack and Kennedy have put on tre-mendous drives. Probably no other candidate could have waged as strong a fight against the brother of the President of the United States as has McCormack.

Although there is no evidence whatever that either President Kennedy or Attorney General Robert F. Kennedy has injected himself into this contest, the fact remains that Ted Kennedy has the power of the White House behind him. And that has made an impact on many delegates.

But McCormack is a potent adversary, not a hap-less victim. If Ted Kennedy is helped by virtue of being the younger brother of the President, McCormack also is aided because his uncle is the Speaker of the national House and the second most powerful figure in the federal government

There is no indication at all that any peace pact be negotiated between McCormack and Kennedy after victory comes to one or the other Friday night. Defeat at this convention is not likely to dissuade either of the two from running in the September primary.

Bellotti is the only one of the Democratic candidates for Lieutenant Governor who has put on a sustained drive. If he wins the endorsement, it will be on the strength of oldfashioned hard work.

This conflict would take on a "new look" if it goes more than one ballot. A stalemate could develop if Colonna's backers keep picking up votes and if Cleary, Connolly and Caggiano have any substantial backing.

Whoever wins the convention endorsement will face a hard fight in the Democratic primary next September.

Even though the delegates are assembled here for the most exciting Democratic State Convention in a generation, there is some talk about the conclave the Republicans will hold the end of next week.

Some of the Democratic politicos have more clearcut ideas as to what is likely to happen at the GOP convention then at their own party conclave.

Strong opposition developed based on the proposed loca-tion. This was led by the aldermen of the adjacent aldermen wards. He said he believes tax re-form vital to the growth and stability of the State's econ-

"We have the highest property taxes in the nation, and with tremendous increased expenses predicted for the next few years in such fields as education and mental health as well as the in-creased costs of running an efficient State government, we are in the desperate need of a revised tax structure," Goldman asserted.

He advocated the adoption of national standards for safe traffic conditions such as compulsory driver education, driver re-examination and

uniform hand signals.
"But most important we need rigid law enforcement. including a true no-fix ticket and comprehensive planning in this field." Goldman stated.

urged that thought be given to such maconstitutional changes as abolition of the Governational changes as a Lieutenam another.

10 COURTEOUS ROUTEMEN TO SERVE YOU

Bros Reid 1981

# WILL THE TOLL ROAD THROUGH NEWTON AFFECT YOU?

Many Newton families and businesses will be displaced by the Toll Road extension.

Judging from the progress which the Toll Road has already achieved in its first few weeks of construction, this displacement will occur in the immediate future.

Because of the urgency involved, the Senior Officers of all the Newton Banks, united in the Newton Bankers' Association, have spent many hours studying the possibilities available to local residents. They, with the complete cooperation and endorsement of the Newton Chamber of Commerce, offer the following suggestions to those whose homes and businesses are in the path of the new Toll Road:

## PRIOR TO "OFFICIAL NOTICE OF TAKING"

If you have **NOT** as yet been notified that your home or business location will be taken by the new Turnpike:

Consult your local bank regarding the advantages of rewriting your PRESENT mortgage for an "interest free-equity mortgage." If your property does NOT have a mortgage, you also may consult one of the banks listed below for an "interest freeequity mortgage" so you will have funds available to buy a new home or replacement property for your new business. If you have already found a new location, let one of the local banks listed below arrange a mortgage on BOTH the new and the old property.

# AFTER "OFFICIAL NOTICE OF TAKING"

If you have already been notified to vacate your present property, it may be possible to arrange a Commercial Loan which will make funds available to you to purchase a new home or business location.

## TENANTS:

If the home your are now renting will be taken by the Turnpike Authority, we suggest you immediately consider the advantage of home ownership, financed by one of the local banks listed below. Replacing your home or business is a tremendously important step and requires careful, considered deliberation. Your local bank -- vitally concerned with the problem - will do everything it can to assist you in whatever way possible.

REMEMBER THE TIME FOR YOUR DECISION IS NOW!

### Merrill Out Of Governor's Council Race

Carleton P. Merrill of New on, Republican candidate for Governor's Council two years ago, announced this week that he is withdrawing his candi dacy for that office in the coming election,
A former Alderman, Merrill

is presently serving as New-ton's Director of Veterans' Services, a position to which he was appointed last January by Mayor Donald L. Gibbs. He also is chairman of the Newton Republican City Committee.

"For the past four months I have been actively campaign-ing for the office of Gover-nor's Council in the second councillor district," Merrill declared

Republican nominee next fall's campaign and expressed the hope that quali-fied GOP candidates will step forward to seek the office.

### Fire Chief's Hints On Spring House Cleaning

The importance of clean attics, basements and garages was stressed again today by Newton Fire Chief Frederick attention to vital points for spring house cleaning time. Chief Perkins cited the fol-

lowing

1. Attics: When cleaning attics be sure to remove all combustible materials which are of no further value and all other items that are kept should be stored in a safe and orderly manner.
2. Basements: Always pre-

sent a problem to fire fighters because in this area will be found every known hazard; oily rags used for painting thrown in corners and on shelves and benches, flamshelves and benches, flamshelves and benches, flamshelves are benches are benches are benches, flamshelves are benches, flamshelves are benches and jars, old newspapers piled close to the heater, oil tanks blocked by storage of furni-ture, etc., all these conditions should be corrected immediately to protect your home from fire.

3. Garages: Have been the catch all for all types of debris during the winter the winter should be months. These cleaned immediately as a cluttered garage with open doors is a temptation to chilren with matches.

4. We are again approach-

ing the season for cook-outs and barbecues and Chief Perkins warns against the use of gasoline, etc., to speed up the fire. Use only the charcoal lighter fluid to start the fire, remember these af-fairs should be fun and enjoyment for the family, do not ake them times for injuries

# WILL THE TOLL ROAD THROUGH NEWTON AFFECT YOU?

Many Newton families and businesses will be displaced by the Toll Road extension.

Judging from the progress which the Toll Road has already achieved in its first few weeks of construction, this displacement will occur in the immediate future.

Because of the urgency involved, the Senior Officers of all the Newton Banks, united in the Newton Bankers' Association, have spent many hours studying the possibilities available to local residents. They, with the complete cooperation and endorsement of the Newton Chamber of Commerce, offer the following suggestions to those whose homes and businesses are in the path of the new Toll Road:

### PRIOR TO "OFFICIAL NOTICE OF TAKING"

If you have NOT as yet been notified that your home or business location will be taken by the new Turnpike:

Consult your local bank regarding the advantages of rewriting your PRESENT mortgage for an "interest free-equity mortgage." If your property does NOT have a mortgage, you also may consult one of the banks listed below for an "interest freeequity mortgage" so you will have funds available to buy a new home or replacement property for your new business. If you have already found a new location, let one of the local banks listed below arrange a mortgage on BOTH the new and the old property.

### AFTER "OFFICIAL NOTICE OF TAKING"

If you have already been notified to vacate your present property, it may be possible to arrange a Commercial Loan which will make funds available to you to purchase a new home or business location.

# TENANTS:

If the home your are now renting will be taken by the Turnpike Authority, we suggest you immediately consider the advantage of home ownership, financed by one of the local banks listed below. Replacing your home or business is a tremendously important step and requires careful, considered deliberation. Your local bank -- vitally concerned with the problem - will do everything it can to assist you in whatever way possible.

REMEMBER THE TIME FOR YOUR DECISION IS NOW!

Both Curtis and Richardson are under heavy pressure from their supporters to carry their fights on into the primary and place their cases before Republican voters. Both are seriously weighing all the factors involved in making such a move.

Curtis advisers and backers are convinced that the 88-vote victory George C. Lodge gained over their man did not reflect the sentiment of the Republican voters of the Commonwealth.

If Curtis decides against entering the primary, probably will mean that the long and distinguished public career of the five-term Congressman is drawing to

The factor which seemingly weighed most heavily against Curtis in his unsuccessful fight for the Senate endorsement was that he waited too long to launch his campaign, allowing young Lodge to get the jump on him and to sew up the pledges of many delegates who

were reluctant to go back on their word.

Even under that handicap Curtis would have won the endorsement except for the terrific job done of him in the Worcester County area by a few Republican pros who are friends of former UN Am-

bassador Henry Cabot Lodge.
With 35 of the 40 delegations recorded and only five to go, Curtis was leading Lodge by 15 votes. Then the roof fell in on Curtis.

Lodge carried the four Worcester districts and the Worcester - Hampden district by a total of 103 votes to overtake Curtis and surge ahead.

Former Republican State Committee Chairman Elmer Nelson, for years a stormy and controversial figure in the GOP, and former Executive Councillor Winfield Schuster were two of the principal architects of the Lodge landslide in the Worcester area.

Many Republicans and some shrewd students of politics believe that Curtis, campaigning on the experience issue and on his record of public service, could defeat Lodge in the primary. Others feel that Lodge, with the impetus from his convention victory, would be a hard man to upset in September.

The guess here is that Curtis, who is being legislated out of Congress, will make the fight and determine who is right. Otherwise, it's the end of the political road for an outstanding public leader.

do much, even to setting holidays, which I suppose is just one more benefit.)
On Monday, June 11th, two

city employees, clad in yellow slickers (and presumably members of some union) threw, into bushes and on lawns and door-steps, green slips, notices, to the effect that no refuse collections would be made this week, Monday, June 18th, due to the "holiday" — collections would be made June 25th. All well and good — if these notices reachgood — if these notices reach ed the attention of the house holder. My green colored slip was some twenty-five feet away from my front door on a wet lawn. Today (Monday, June 18th) I know these notices never got inside the houses in my neighborhood, for trash barrels stand as sentinels all up and down the streets of this section.

Certainly I am not for holi-

day abolishment, but if these city employees are willing to pay union dues and accept a "paid holiday" at least the taxpayer is entitled to a job well done.

How about working and

playing together?

Very respectfully,

nis Find Emulsion Radio-autography System. Radioautography is a very useful technique in biomedical research as well as in some kinds of medical diagnoses, since it enables the scientist to determine with great precision where radioisotopes locate themselves in tissues and ells, and even parts of cells. Since the body's metabolism

treats radioactive chemicals exactly the same way it would treat ordinary non-radioactive chemicals, it is possible to fol-low the normal or abnormal metabolism of important chemical substances in the body by substituting radioactive chemicals for non-radio-

active chemicals. While radioautography has been known and used for many years, formerly it was a very cumbersome, painstak-ing method

Dr. Joftes has developed a veloped portable auxiliary apparatus which makes the travel alone to Moscow for technique even more contractions.

A Newton scientist who has developed a compact apparatus to aid him in the field of radioautography will attend the Eighth International Cancer Congress to be held in Moscow, July 22-28.

David L. Joftes, Ph.D., of 25 Greenlawn avenue, Newton Centre, is head of the Department of Radiobiology at the New England Deaconess Hospital. At the Moscow conference he will demonstrate his Fluid Emulsion Radioautography System.

### Anti-rabies Clinic Planned Here For Dog Vaccinations

Dr. Edward J. Sawyer, act ing director of Public Health, today announced initial plans dality, the NROTC drill team for clinics where owners of and the "Cross Current" staff dogs may be immunized against rabies.

The Mass. Dept. of Public

Health, the Mass. Veterinary Association and the Newton Health Department are joining in a concerted information program to alert residents of precautionary measures per

taining to dogbite.

This is because a case of rabies occurred following a bat bite of a resident in the town of Harvard within the past six months. It was the first case of rabies in Massahusetts reported in 14 years Dr. Sawyer said:

"Although there are few measures we can take to pre-vent this particular source of infection, we can take steps to prevent an epidemic amongst the dog population in Massachusetts. The primary one is through annual vaccination of your dog dog against this contagious diseither through own veterinarian or at annual rabies clinic offered by the City which will be held in the latter part of May.

## New Fund Is Being Formed

In honor of, and in co-opera-tion with, Dr. Donald K. Da-vidson, principal of the Newton South High School, a new fund is being formed to sup-ply library materials to sec-ondary schools in Nigeria.

Dr. Davidson was originally associated with the Nigerian project when he went to that country during the past win-ter to help establish a secondary school system.

Feeling that the parents of the graduating class of 1962 had had such a pleasant as-sociation with Newton South High School, Mrs. Robert B. Swett, mother of Robert B. Swett, Jr., president of the class of 1962, planned this project whereby they could have a continuing association and, in addition, make a distinct contribution to international understanding.

Contributions are now be ing solicited and should be sent to Mrs. Charles Sherman, 130 Nehoiden rd., Waban 68.

A number of teachers from the Newston School Department will be going to Nigeria to teach during the 1962-63 school year.

### Political Highlights

Yet, this is a situation which could have and must have been foreseen by Republican leaders. They could hardly have expected that Congressman Curtis on the basis of an 88-vote defeat at the GOP State Convention would retire to private life to make way for a young man who never before has held an elective office and who is untested and unproven.

Take the case of Curtis. A graduate of Harvard

Republican ladder step by step.

He served in the Boston City Council, in both branches of the State Legislature and in 1946 was elected State Treasurer, the last Republican to hold that office.

Presents His Exclusive BODY WAVE \$10.00

The Body Wave is a form of permanent waving used on hair that either has a little natural wave or hair that waves easily. It does not add appreciably to the amount of wave already in the hair, but gives such strength and resiliency to the wave as to make the hair seem naturally wavy and remarkably easy to put up.

It is for hair to which the ordinary permanent wave (however soft) gives too much curl.
